**Commonweal**  
 inspiring nonviolent  
 social change

## Collection Classification List

The Commonweal Collection has a unique classification system created by David Hoggett in the 1970s. It reflects those times in the language used and the categories chosen and also reflects the Collection's depth and breadth. Some of the terms used have fallen out of use or out of favour but were deemed acceptable at the time.

The catalogue is available on the Commonweal website and also at <https://catalogue.brad.ac.uk..>
